

Do-Not-Call ATTACHMENT

Starting January 1, 2005, telemarketers and sellers will be required to search the registry at least once every 31 days and drop from their call lists the phone numbers of consumers who have registered.

For more information, see:

<http://www.ftc.gov/bcp/edu/pubs/business/alerts/alt129.htm>

The cost for scrub service for MarketService 2000™ subscribers is currently \$55 per month. To maintain compliance with the National Do Not Call Registry, your lists should be synchronized (scrubbed) with an updated version of the registry every 31 days.

Procedures for Database Scrub Service

Below you will find the procedures and pricing for our National Do Not Call Registry scrub service.

Step 1– Create a Profile

A representative from your location will need to go to telemarketing section of the National Do Not Call website and create a profile. The address is <https://telemarketing.donotcall.gov>. You will need your EIN number or SSN to complete the profile. Make sure to select "Seller" as the Organization Function. When the profile is complete a page with your Organization ID, Representative Password, and Download Password will display. **Print this page and keep in a safe place.**

Step 2—Subscribe and Pay

The next step will be to subscribe and pay for the area codes that you will need for your system. The DNC Registry provides the first five area codes at no cost. There are three choices, All Area Codes (\$17,050), Area Codes by State (\$62 Per Area Code over 5), and Area Codes by Area Code Number (\$62 Per Area Code over 5).

Step 3—SAN

When completed you will get a SAN # (subscription account number) for the area code selection you made. When you provide Wesner Associates with your SAN# we will download your file and import this into your MarketService 2000™ database. This file will be imported into your database file as your data as described in the MarketService 2000™ agreement. We will then scrub your database file and report all findings. You will also receive a report via email of questionable phone numbers.

MarketService 2000™ Do-Not-Call Scrub Service

Upon activation of the MarketService 2000™ Do-Not-Call Scrub Service, all existing records will be verified against the National Do Not Call Registry according to your firms SAN# every 31 days. In addition, any records added or edited after the scrub service will be verified against the registry as of the last download date. Please note that your Subscription Account and SAN# expire after 1 year and will need to be renewed.
